## Skill Profile

Percentage vis-a-vis Skill Areas

Java Design Patterns General Knowledge Mathematical Reasoning Honesty Efficiency  
Good Temperament Java -Spring Reasoning Java-Threading Vocabulary Creativity Social

Profiling Param	Detail
Java-Threading	Poor concepts! Basic threading concepts are a must in a Programming job irrespective of technology
Java	Average
Design Patterns	Excellent! Good thinker and analyzer. Has the potential to translate a problem statement into a good design keeping future concerns (adaptability, scalability, performance and so) in mind
General Knowledge	Not bad!. Folks, on average, on GK front are like you
Mathematical Reasoning	Not adequate. But can be groomed to be better
Honesty	Trust will come at a price
Vocabulary	Lower - Intermediate. But can be groomed to be better
Creativity	Need to improve a bit to fit in a dynamic work environment.
Social	Typical to most folks
Efficiency	Being organized is not a trait you thrive on.
Good Temperament	Has reasonably good temperament
Reasoning	Average. Can apply information or concepts in a new way
